

## the new washroom generation

You never get a second chance to leave a first impression.

No washroom system is as complete and offers as many advantages as XIBU. The dispenser series impresses with its noble design and thanks to different decors it matches every washroom. Intelligent refill and reserve functions guarantee simple operation and economical use. The touchless operation ensures maximum hygiene.

With XIBU inox, the noble design is also available in indestructible stainless steel. Slender, perfectly shaped taps complete the appearance of XIBU.

The fact that the foamSOAP and foamSOAP PREMIUM as well as the multiROLL paper qualities are awarded with the EU eco-label shows that HAGLEITNER is a sustainably conscious company.

## LUNA 2.0

For every hotel room.

Quality is decisive for guest comfort. This is especially true for hotel rooms. Premium design and high functionality are the strength of the LUNA 2.0 series. The high-quality refills in shower and paper products fulfill the highest quality demands.

Intelligent features like portion control and paper break ensure economic consumption.

The possibility to place your logo on the holder of the showerMAID shower gel dispenser allows you to strengthen your brand.

### Your benefits at a glance

- Shapely shower gel dispenser
- Economical dosage
- Airtight unit protects against contamination
- Individual hotel branding possible
- Well-suited for showers and wash basins
- Filling level indicator through inspection window

## XIBU disinfection

hygienically clean

The hands are the number one means of transport for infectious agents. Germs lurk everywhere, on doorknobs, various surfaces, money, even in shaking hands!

XIBU senseDISINFECT effectively reduces the percentage of germs on your hands to a minimum within seconds, thus providing safety to yourself and all who you come in contact with.

### ACTION SPECTRUM septLIQUID SENSITIV

- Hygienic hand disinfection according to EN1500
- Surgical hand disinfection according to EN12791
- Effective against noroviruses (MNV) according to EN14476
- BVDV according to DVV/RKI guideline 2008
- H1N1 / H5N1 according to DVV/RKI guideline 2008
- Vaccinia virus (VACV) DVV/RKI guideline 2008

**Modern washroom hygiene**

No dispenser series offers as many possibilities as XIBU. Whether in the various decors or in stainless steel, installed on top of the wall or flush mounted, whether manual or touchless – XIBU is the most flexible washroom system available.

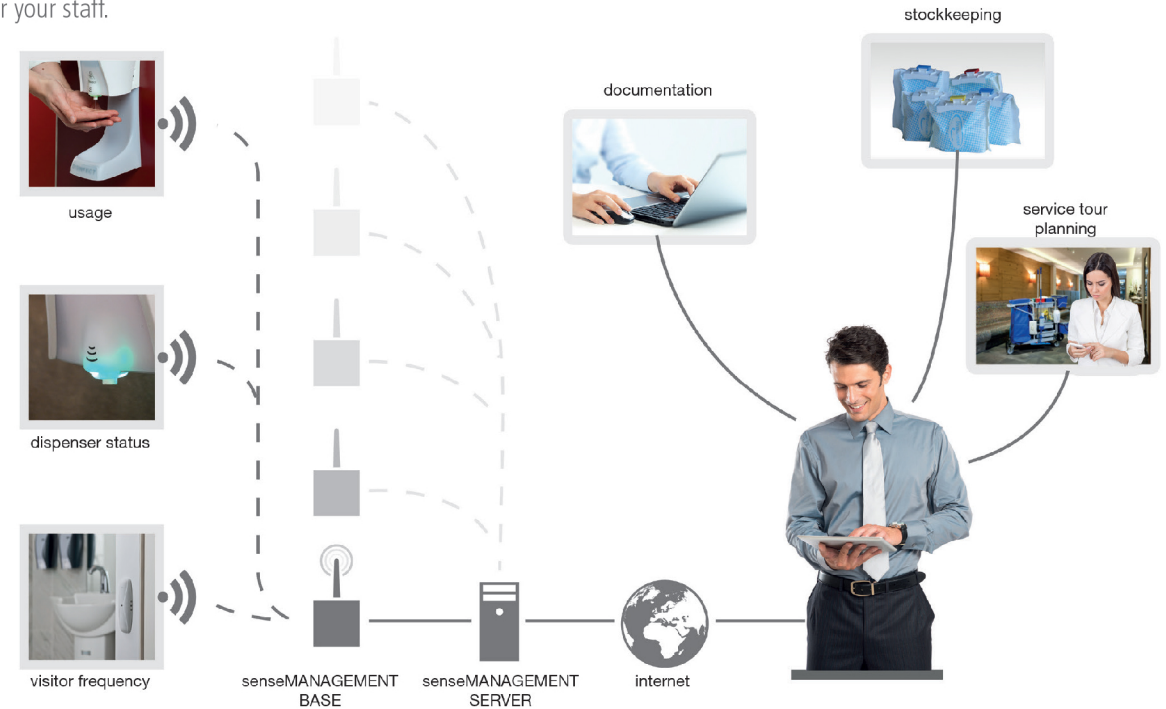

**Your advantages at one glance**

- 7 décors and stainless steel offer unique design possibilities
- Cost-effective and economical in consumption
- Intelligent reserve function feature
- "sense" enables touchless operation

**HAGLEITNER senseMANAGEMENT**  
*intelligent. ecological. cost effective.*

The intelligent XIBU sense dispensers supply all data necessary for efficient services. You know which room needs batteries, soap or paper and you are able to react accordingly. The reserve function of the dispensers allows sufficient time to set up an efficient cleaning tour for your staff.

**Advantages of HAGLEITNER senseMANAGEMENT**

- real-time information on the operating status of the dispenser.
- targeted deployment of the cleaning staff as truly needed
- consumption-based purchasing and logistic planning
- frequency based cleaning and refill intervals
- possibility of alternative charging systems, e.g. "pay per use" or "pay per entry"

**XIBU inox**

The ideal way to equip any washroom with indestructible stainless steel dispensers. Elegant and perfect design leaves a lasting impression. The installation of the smart stainless steel dispensers into the wall results in a unique room setting. Whether solid walls, Ytong, wooden constructions, drywall, glass or metal – due to the mounting frame the noble dispensers integrate into any wall.

The backlighting of the dispenser silhouette pronounces the noble design of the XIBU inox dispensers and creates an unique atmosphere in the washroom. A proverbial "highlight" for individual interior design. Using the supplied RGB controller, the color of the LED strip can be set arbitrarily.

The sensor controlled dispensers can be supplied directly with electricity from the grid by using the powerPACKs. Alternatively, batteries can ensure the power supply.
